What is Skool?

[Skool](#) is a community platform that lets you start, grow, and manage an online business.

With Skool, you can:

- Build your own community, courses, and events

- Charge subscription memberships or 1-time course purchases
- Make money online doing what you love with one simple platform

Skool is simple, you can set it up in less than 30-minutes, and because it's an all-in-one platform, you don't need to integrate any tools for it to work. This gives you the flexibility to access and run your business from almost anywhere, including your mobile device.

How does The Skool Games work?

Alex Hormozi collaborated with Skool to host The Skool Games — a challenge to help you build your own online business.

Here's how it works:

1. Sign up for The Skool Games
2. Think of something to sell, promote it, and get customers
3. Leaderboards show how much money people are making in realtime
4. The top 10 on the leaderboards win 1-day with Alex Hormozi at his Vegas HQ where we share what we did to win and collaborate to find ways to improve
5. We record the Vegas event and make it available so you can learn what's working
6. Every month there's a new chance to win. If you don't win the first month, you'll learn from the winners in the 1-day recordings, and can try again the following month

Alex Hormozi will be your personal mentor to help you start your own online business and grow it to \$10,000+ /month. You'll get simple instructions, weekly Q&A calls on Zoom for support, and a community of successful entrepreneurs all collaborating to help each other win.

How much does it cost?

Try Skool free for 14-days.

Cancel your trial whenever you want with 1-click.

At the end of your trial, you'll be charged \$9 or \$99 /month depending on the plan you choosed— this gives you access to skoolers training, community, events, etc. and your own Skool software subscription.

Do I need to be an expert to make this work?

No, you don't need to be an expert. The Skool Games provides instructions, training, and support to teach you all the skills necessary to make money online.

If you're an expert, your path to success will be faster because you already know what to sell, who to sell it to, and how to run a business. If you're a beginner, you shouldn't expect to make money right away — you'll need to acquire skills and experience first. We have beginners making their first \$1 online everyday, and you can too if you put in the work.
